We Care Health Care

Why should you choose Maxim-LIS, Laboratory Information Management System over Other LIS systems available in the market today, please find some unique facts.

Features	Features available in Maxim Lis	Features available in Other LIS Software
Less Maintenance	**Maxim-LIS** needs very little maintenance cost. The maintenance is almost none.	Maintenance is heavy.
Connect multiple branches easily.	**Maxim-LIS** allows you to operate through multiple branches connected to a central server.	No centralized database connectivity. All branches are separate.
Access software from anywhere, anytime	**Maxim-LIS** is available anywhere, anytime.	You have to go to Laboratory to access your software.
Remote support system never allows breakdown	**Maxim-LIS** maintenance can be performed remotely. Zero hrs. of downtime guaranteed.	Lot of breakdowns, crashes, operating system issues, virus problems and many headache things, thus longer downtime is absolutely evident
Never Slows down, browser based software	**Maxim-LIS** is browser based software. It runs on type of browsers and all Operating system platforms.	Traditional windows based software. Running through desktop applications. Software needs to install on every computer system.
Easily upgradable	**Maxim-LIS** Up gradation is easy and through the web instantly.	Takes long time to upgrade software. The upgrade has to be ported in each and every computer. Imagine you have multi computers, you have to update in each and every PC.
Plug and Play System	**Maxim-LIS** is a plug and play system. It runs on unlimited numbers of computers in LAN and WAN network. Just connect any computer and operate it.	Limited computers availability. If you need to increase computers, you will have to call vendor, pay extra charges, wait for up gradation, invest huge amount which is hidden charges not known in advance.

We Care Health Care

Complete Database driven	**Maxim-LIS** is purely written in parameters style. No hard coding anywhere. Customizing Maxim-LIS is very easy.	Complete complex structure. Hardcoded things which are difficult to modify by user. Every time you will be dependent on vendor to change things for you.
Quanta Billing System	**Maxim-LIS** covers all types of billing, Cash, Credit, Insurance, and Corporate, billing system. Also Introducing new billing system is a breeze in Maxim-LIS.	Limited billing system. Hardcoded billing patterns. If you want to introduce new billing pattern, contact the software provider again and again.
Integrated with all depts. of Laboratory	**Maxim-LIS** is fully interconnected software with all depts. Information flows from one dept to another in seamless way.	Interconnection is not known at all. Everywhere you will have to duplicate information again and again. No single entry and exit system found.
No papers, complete EMR record online	**Maxim-LIS** makes Laboratory paperless. Complete Electronic Medical Record information is available instantly, Anywhere & Anytime.	What is called as EMR is not known to many LIS available today in market. They just provide you a small, tiny billing system.
Patients can be registered from any location.	**Maxim-LIS** makes possible to register patients from remote location. Local congestion can be avoided. Get preregistration done of patients before arriving in a clinic.	Cannot register patient information from remote location. TLIS most important feature is missing in other LIS software.
Ease of Use	**Maxim-LIS** is very easy to operate; any novice user can operate it.	Very complex screens, you will have to refer help files again and again. Do not understand what is actually called as LIS.
Open collection centers, franchisees of your center easily.	**Maxim-LIS** allows opening unlimited franchisee centers, branches easily.	Cannot connect multiple branches with central server.
SMS alert facility	**Maxim-LIS** generates SMS/email alerts for immediate attention.	SMS/Email is not connected; it has to be done separately.
Doctors can access patient records from anywhere.	**Maxim-LIS** allows accessing patient records from anywhere, anytime using internet facility.	Patient cannot see their records online.

MIS access from anywhere	**Maxim-LIS** makes easy for you to travel and see progress of your center from anywhere, anytime.	Other LIS cannot allow you to connect from remote location. You have to be dependent on others to send you progress of your Laboratory.
Complete worry-free software.	**Maxim-LIS** is an absolutely worry free software.	Lot of problems, everyday headache is found
Parameter driven	**Maxim-LIS** is User defined parameters software.	Other LIS are generally Hardcoded, rigid software.
Interface enabled	**Maxim-LIS** is Smart card interface enabled Barcode interface enabled RFID enabled Biometric Fingerprint enabled Fingerprint access control enabled.	These modern, advance gadgets are not covered in older LIS systems.
Web Architecture	**Maxim-LIS** is full browser based & web enabled, 3-tier, N-tier architecture software.	Windows based LIS available everywhere. They are client server based systems, where lots of limitations are found.
Standards Covered	**Maxim-LIS** contains all types of International compliances like NABL, NABH, DICOM, ICD, HL7, HIPAA, CPT, and SNOMED.	Many LIS have less or not any compliance covered. They do not fully cover International standards.
Used by top Laboratories & Industries	**Maxim-LIS** is used by **top Laboratories in the World** Visit: http://www.birlamedisoft.com/clients.html	Not known
Uses Microsoft Technology	**Maxim-LIS** uses top quality world leader Microsoft .net technology. Microsoft technology is rugged & tested. It gives definite results and seldom puts anybody in trouble. It's well supported by Microsoft who brings everyday some innovations in the IT world.	Other they use free to use, open source, which is not standard technologies. These technologies are free; therefore support to them is unknown.
Driving Force	**Maxim-LIS** is designed by experienced Doctor (Dr. Upma Birla, MS Gynecology) and highly experienced IT professional (Mr. Shrinivas Birla) minds.	Many LIS are designed by trainee students / small time programmers. They do not understand the correct meaning of healthcare software writing.

We Care Health Care

Software is ready to evaluate	**Maxim-LIS** is available on the Internet anytime for the testing purpose. It's available at www.maxim-lis.com as a live demo. We are talking about '**We are Ready'** scenarios.	Others are showing PowerPoint presentations, they are talking about "**We will make it**" scenarios.
Report Writing	**Maxim-LIS** uses Crystal report that is correct. Crystal report is world leader tool into report designing. We always go for the best in industry. Crystal report is a SAP owned company today.	Others use local report writer which is a locally developed tool whose credibility is unknown.
EMR designed by full time Doctor.	**The full Maxim-LIS is** designed by full time dedicated Doctors, so you must be sure to get the high quality EHR/EMR which is tested by other doctors. Because when a full time Doctor is involved in the designing of a healthcare software, it is bound to be the best	Most of the time Part time doctors are hired for analysis purpose, they are hired when needed.
Quanta Presentations	**Maxim-LIS demonstrations/presentations** are always given by Qualified Medical Professionals, who understand your exact needs and ready to meet your requirements. You do not waste your time in explaining your requirements to them.	Presentations are given by engineers & IT professionals, who are not well conversant with the medical field. You have to break your head in explaining your requirements to them.
Gadgets ready	**Maxim-LIS is ready with all types of gadgets connectivity.** - SMS - Plastic Card Printing - Barcode - Fingerprint - RFID - Tablets - **Smart Phones** - Electronic Writing pads **You ask any connectivity, we are ready for the same. We are ready to demonstrate all features described above.**	Not known
