What is **Maxim-LIS.com**?

Maxim-LIS.com is online virtual Laboratory management software which allows operating Pathology labs and Diagnostics Centres through internet.

Maxim-LIS.com is a full-featured web based, N-tier architectural Laboratory Information Management System (LIMS) integrated into the Windows environment. **Maxim-LIS** is one of the world's first client configurable LIMS products, providing an unparalleled degree of client involvement in adapting the software to their specific needs.

Maxim-LIS.com is Low risk, Maintenance Free software. There are no installations on multiple computers anywhere. Maxim-LIS gets installed only on the server and operates through Browser. It gives high returns on investments.

Maxim-LIS.com is very affordable. It has a robust database system to handle large data with critical needs to ensure a high level of data security. It's a HIPAA (Health Insurance Portability And Accountability Act) compliant software with 128 bit encryption system embedded.

Maxim-LIS.com can be deployed remotely, No waiting period, which means a reduction in deployment time. Maxim-LIS.Com helps in training and configuration needed for your workflow right away, shortening the overall time to Go Live.

Maxim-LIS.com is precisely controlled by login permissions. Usage of the software is not restricted to a single workstation; it is unlimited usage, anywhere, anytime. Staff and customers can check their records, results and access reports from their own computers using web access.

Maxim-LIS.com helps in freeing up of your IT resources, allowing them to concentrate on maintaining the existing systems well, rather than giving them even less time to attend to quality assurance and pro-active improvements in performance.

Maxim-LIS.com is easily upgradable. Upgrades may be applied when ready and consistently across everywhere. You don't risk faulty deployment of fixes, upgrades or versions, and you always have the latest and greatest software.

Maxim-LIS.com is ideally suited to offering more than one application. Along with **Maxim-LIS.Com** you get CRM (Customer Relationship Management), Time Tracking, Help Desk, e-Commerce, Accounting, Inventory, SMS sending, Dashboards and more, plus additional programs available for purchase/download.

Maxim-LIS.com will be able to send lab reports to Individual patients and collection centre via internet anywhere. Reports consist of electronic signature. As soon as report is ready, patients are notified via SMS that report is ready. Reports can be downloaded by patients directly.

Maxim-LIS.com comes with Barcode Scanning and Printing modules. Specimens are accepted by Barcodes. Barcodes are generated as per International Standards of nomenclature.

Maxim-LIS.com is ready to be interfaced with all types of Laboratory Instruments. Any instrument can be interfaced via Unidirectional and Bidirectional way.

Maxim-LIS.com is ready to be interfaced with Medical Imaging Modalities like CTScan, MRI, Xray, Ultrasound etc. **Maxim-LIS** works with **Maxim-PACS** (Picture Archiving and Communication System) a fully web based Teleradiology PACS software to deliver Digital Images (DICOM) anywhere via Internet. For more details about Maxim-PACS software, please visit www.maxim-pacs.com
